1. (1) 【答案】 B

【解析】 Hello, my dear friends. I'm Wang Hui. Today, I'm here to share my studying experience with you.

When I was in Grade 7, I worked hard but made very little progress. That made me worried. I almost gave up studying. Later, my teacher talked with me about my problem and gave me some advice. I followed it. Oh, amazing! It worked. Now, let me tell you about it.

First, we should have enough sleep at night. It makes a fresh brain.

We can remember things clearly and quickly. Good sleep also makes good health, and good health helps us study better.

Then, we must find out our best time to study. For me, it is in the morning. But my classmate, Zhang Pan, studies best at night. He thinks he can have a good review with longer hours at night.

Finally, we should communicate with others. It makes us feel relaxed.

I hope it will help you. Thank you!
